

UX DESIGNER

Aaron Benjamin

I lead design for complex product systems, connecting research, shared models, and shipped interfaces. My work spans marketplaces, education, commerce, and internal tools, with a focus on decisions teams can carry through implementation.

EXPERIENCE

Senior UX Designer / Renaissance Learning

July 2024 - Present · Remote

- Led UX strategy and end-to-end design for K-12 classroom experiences across Renaissance Intelligence.
- Directed the design and launch of Renaissance Intelligence and contributed reusable patterns to the design system.
- Championed Object-Oriented UX across design and engineering to strengthen shared product models and team alignment.

Senior UX Designer / Indeed

October 2022 - July 2024 · Remote

- Led monetization and growth design initiatives for the employer experience, contributing directly to revenue expansion.
- Generated new revenue streams and cost savings by designing and analyzing over 30 A/B tests for employer monetization initiatives.
- Scaled new design methods company-wide by founding a cross-functional UX working group, improving design craft and consistency.

Senior Product Designer / Redfin

February 2022 - September 2022 · Remote

- Influenced product roadmap and strategy by delivering user research that realigned business priorities toward customer-first features.
- Conducted discovery and tactical research to identify user needs and business opportunities.

Staff UX Designer / The Home Depot

October 2018 - February 2022 · Atlanta, GA

- Designed enterprise tools for merchandising, store systems, and HR with cross-functional product and engineering teams.
- Planned and facilitated research to inform product priorities and validate design decisions.

Senior Product Designer / Snap! Mobile

January 2018 - October 2018 · Seattle, WA

Led end-to-end design in agile, cross-functional teams, supporting a portfolio of fundraising products.
